# COMPANY PROFILE

*Your specialist technology partner*

## Introduction

Seven Labs is a specialist electronics distributor and systems integrator with over 20 years experience, offering various value-added benefits to its customers, such as research and development support, specialist product sourcing, contract procurement services, prototyping, kitting and assembly.

## Our Focus

Supplying quality components and products from international brands

Establishing long-term relationships with customers, suppliers and partners

Providing the highest level of service together with competitive prices

## Core Values

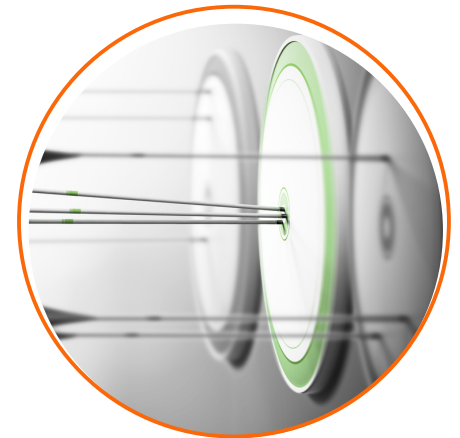

### Integrity

We honor our commitment to those we serve by always doing what is right. We adhere to strong moral values and principles, while doing everything in our power to meet customers' expectations.

### Humility

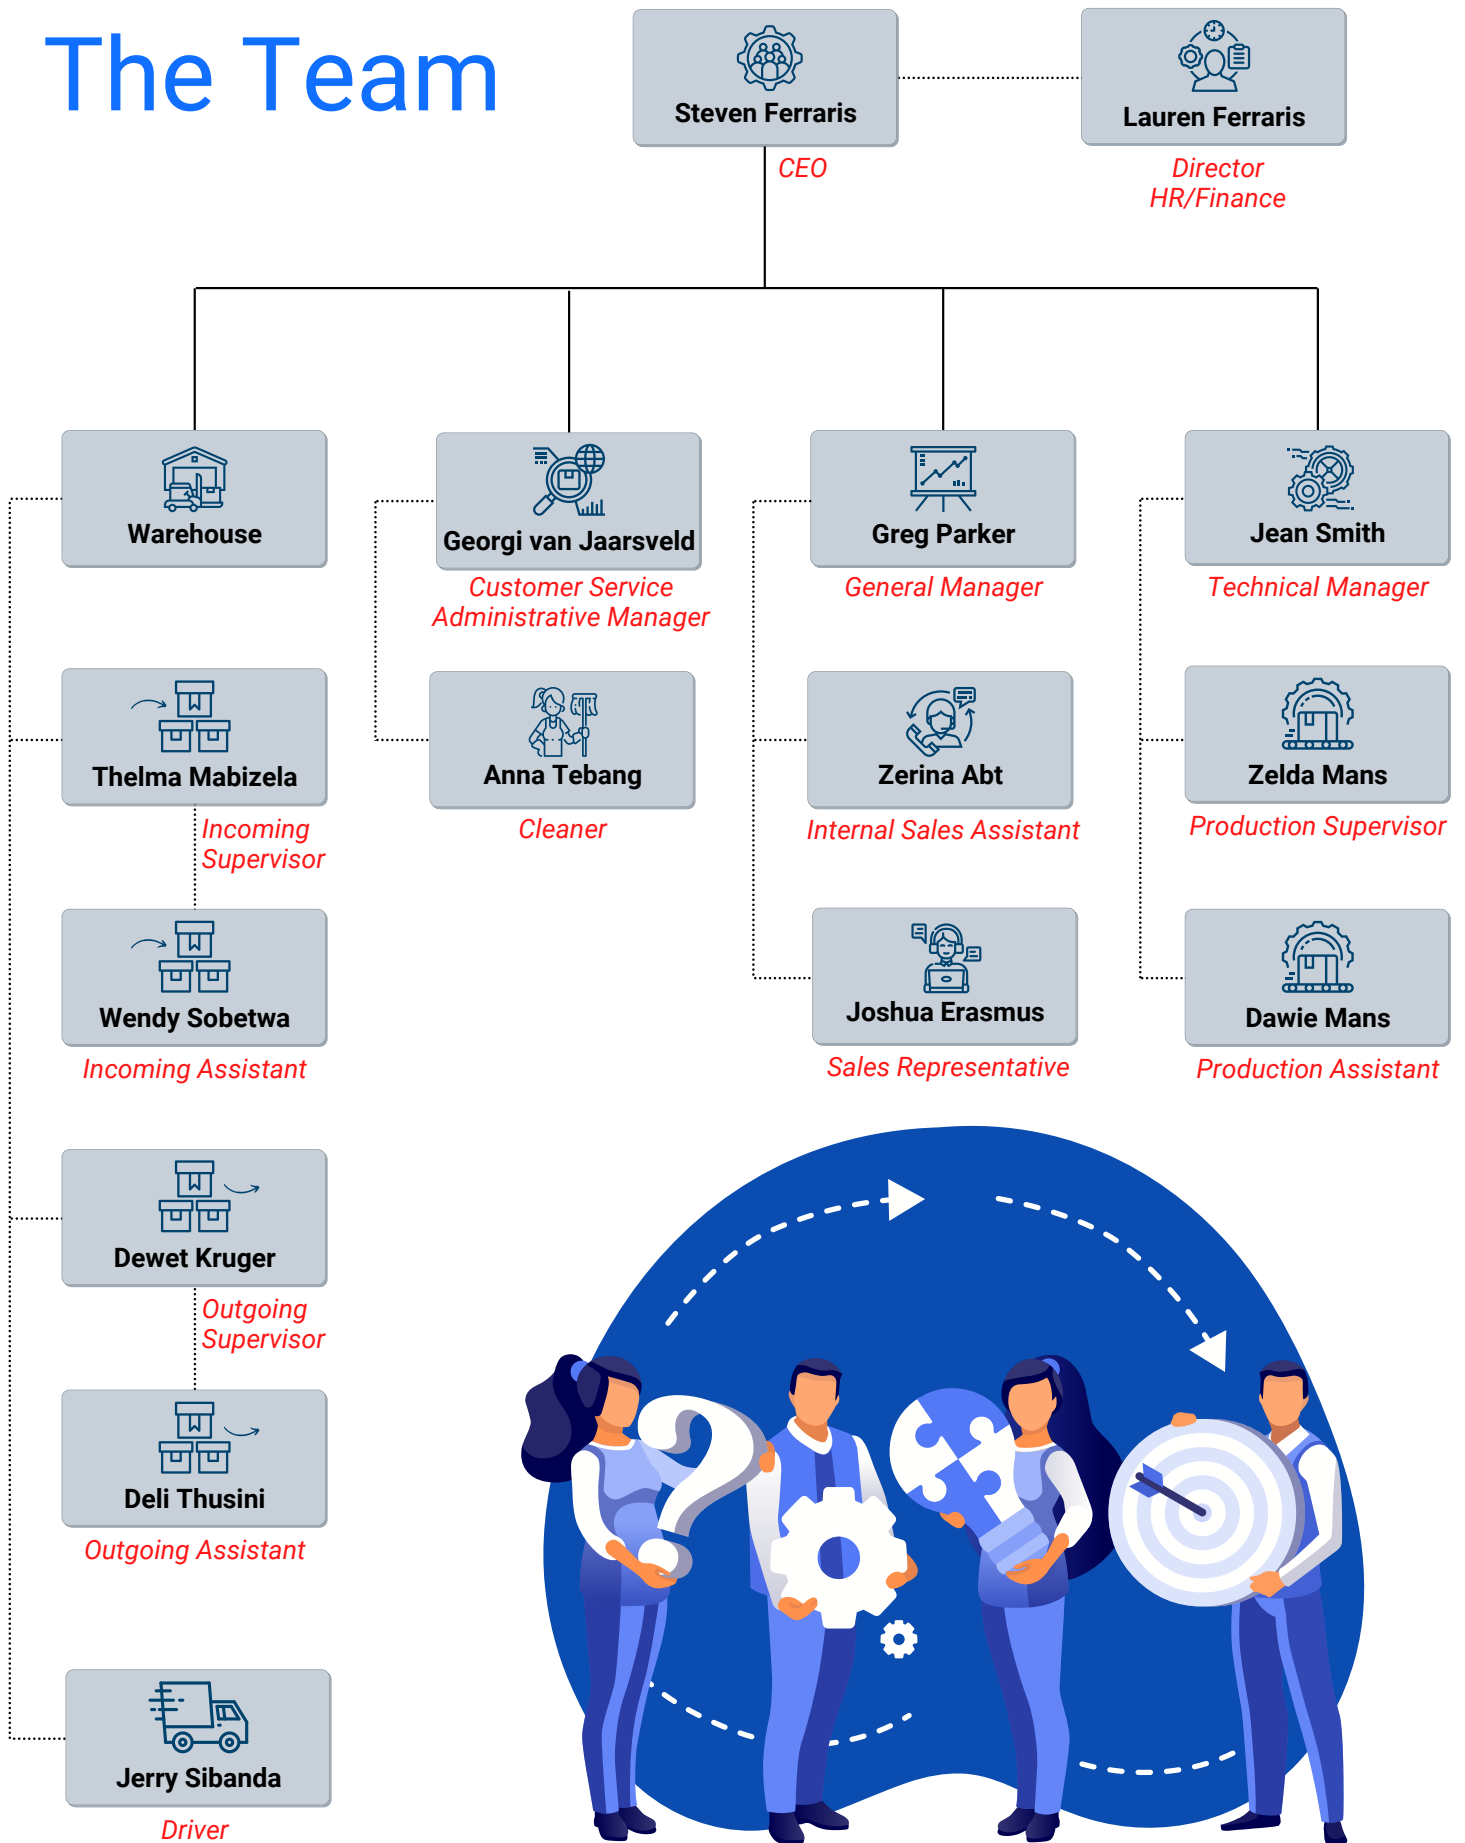

Being humble is what keeps us real. We believe that every team member adds value. Staying true to who we are is what differentiates us as a company.

### Excellence

Keeping our customers happy and satisfied through our high level of quality service, is what we do best. We are dedicated to building character and leadership that promotes excellence in our day to day responsibilities.

Full Assembly Management Services

Specialist Lithium rechargeable and non-rechargeable battery manufacturer

Next generation Batteries for Internet of Things(IoT) and portable devices

Switches, sockets, connectors

Pushbuttons, Tactile Switches and Relays

High Quality, Ultra-Low ESR/Leakage Supercapacitors

Primary lithium battery manufacturer and solution provider.

RF Antennas , connectors and cable assemblies

Specialized fabricator for Super capacitors

Sim card, FPC connector, Micro USB, B2B & wafer connectors

Interconnect - B2B/B2W connectors, cables, harnesses, headers, etc

Wire, switches and cable assemblies

LCD and OLED displays and modules

Vehicle and Truck Cameras, PCB cameras, Camera accessories, etc

RF electronic coaxial connectors, cable assemblies and related accessories

LCD and OLED displays and modules

Network, RJxx and interface connectors

RF electronic coaxial connectors, cable assemblies and related accessories

CCTV lens , CCD camera and Photoelectric instruments

Industrial, water-proof, locking, panel and cable circular connectors

Plastic and metallic enclosures for electronic equipment

Robotics Components and Kits

Industrial circular connectors, cables and harnesses

Plastic and metallic enclosures for electronic equipment

Network IP & USB cameras
